Another way to communicate

The Alcatel-Lucent 9 SERIES takes you to a new dimension in audio experience, esthetics, communications productivity and customer care. This advanced range brings the award-winning power of the Alcatel-Lucent OmniPCX communication servers – with their spectrum of advanced features – within even easier reach.

✚ OUTSTANDING AUDIO

Alcatel-Lucent 9 SERIES offers the best sound quality around. Its terminals have a hands-free speakerphone, including acoustic echo cancellation, and take listening comfort to new levels.

✚ FUTURISTIC DESIGN AND OPTIMIZED ERGONOMICS

Their sleek, ultra-modern design, available in urban gray, is itself hard to resist. But these phones don't just look the part – they are also conceived to ensure the simplest, most intuitive, access to a wealth of features.

✚ INTUITIVE AND COMFORTABLE TO OPERATE

Alcatel-Lucent 9 SERIES soft key functions couldn't be simpler to use, as they automatically change according to the call context, and are clearly displayed on the screen. Intuitive icons make using the system's sophisticated features as easy as 123, while the phones' high-resolution, adjustable graphical screens enhance comfort-of-use.

Even richer features

THE ALCATEL-LUCENT 9 SERIES OF DESKTOP PHONES COMES WITH A WEALTH OF FEATURES DESIGNED TO IMPROVE YOUR BUSINESS COMMUNICATIONS:

AUDIO EXCELLENCE

The range has been designed to take the fuss out of communication, whatever the sound source. It enables smooth, automatic transfer from headset to hands-free for group listening without the need to remove the handset from its cradle. The Alcatel-Lucent 4029 and 4039 digital sets come with a built-in port for the use of a headset, additional speaker or tele-conferencing system.
NAVIGATOR

The phone navigator feature makes the display more user-friendly by allowing you to scroll in up to four directions up. The navigator, along with the context-sensitive soft keys, provides easy access to the Alcatel-Lucent system's many features.

MORE DEDICATED FUNCTION KEYS

At the push of a button, gain direct access to your mailbox or directory, or simply redial or ask the terminal for help. Audio control functions (loudspeaker volume-control, hands-free audio control, mute etc.) are separate from the system's functional keys to facilitate easy and clear audio control for the user.

DISPLAY

The Alcatel-Lucent 9 SERIES offers rich visual information on large, adjustable-displays. These range from a one-line screen of 20 characters to an adjustable four-tone grayscale graphical display.

INTUITIVE ICONS AND SOFT KEYS

Determining the status of a call is simple with the help of easy-to-understand icons. The phones' dynamic soft keys change according to the call context, displaying call handling features in active communication mode. So you always get the right feature at your fingertips at the right time. Extra programmable keys are provided to further customize usage.

ALPHABETIC KEYBOARD

The Alcatel-Lucent 4029 and 4039 digital sets are equipped with an integrated alphabetic keyboard, exclusive to Alcatel-Lucent, which provides easy access to the "call by name" function via the company directory and to messaging services.

60-DEGREE FOOT-STAND

All terminals have an optional 60 degree foot-stand to minimize the footprint on your desk and optimize the display angle for comfortable viewing.

Even more open and flexible

SAVE YOUR COST ON CABLING WHEN INSTALLING NEW EQUIPMENTS

The Alcatel-Lucent 9 SERIES phones offer additional flexibility and ope ness with Alcatel-Lucent's interface modules. They join the desktop telephone to a communication link and give you flexibility and scope for integrating telephone functions into your PC applications, linking additionalperipheral equipments or connecting on a single cabling up to three Alcatel-Lucent phones.

THREE INTERFACE MODULES:

+ Analog interface module to connect an analog device (fax,...)

+ S0 interface module to add a SO device and take advantage of ISDN

+ V24/CTI interface module to connect a CTI or V24 device (braille console, printer, pc, ...)*

ALL THESE MODULES SUPPORT BOTH ALCATEL-LUCENT 9 SERIES AND REFLEXES PHONES. THEY ARE WALL MOUNTABLE.

+ Small is beautiful with Alcatel-Lucent 4019 digital set

This compact model provides all the necessary features for advanced telephony without the frills. These include a one-line, 20-character display; a bidirectional navigator for user-friendly scrolling; direct access to the company directory and mailbox; an external loudspeaker and 6 programmable keys.

Fully adjustable display for a clear and comfortable viewing angle, from wherever you're looking.

EXTEND THE CAPABILITIES OF YOUR PHONE WITH ADD-ON MODULES

Grow with your 9 SERIES phones. Add further functions and directdial keys. You can see at a glance if your colleagues' lines are busy. Choose the number of keys you need from three modules:

+ Ten additional keys.

+ A newly designed smart display module with **14 additional direct access buttons** and a large LCD display, allowing for quick and easy "paperless" identification of associated buttons.

+ **40 extra keys,** turning your phone into a switchboard, with direct access to all internal extensions and theircurrent status (busy, free, etc.)
